Evergreen Office: Investment Allocation Policy

Version 2026.1 | Effective 2026-01-01 | Document date 2026-10-09 | Policy owner: Sofia Reyes, Risk | Approved by: Daniel Foo, Chief Investment Officer

1. Purpose and scope

This policy sets the limits within which the investment portfolios of Evergreen Office are run: four portfolios across three legal entities (EG-HOLD Evergreen Holdings, EG-TRUST Evergreen Family Trust, EG-B Entity B). Base currency is USD; the office reports in USD and SGD.

2. Strategic allocation targets

Strategic target weights per asset class are not set in this version. Until the Investment Committee issues them, the minimum and maximum limits in section 3 are the only allocation constraints in force.

3. Allocation limits (percent of the portfolio)

Rule code	Portfolio	Entity	Dimension	Bucket	Min	Max
limit_single_name_liquid	EG-LIQUID	Evergreen Family Trust	single name	any single name	0%	5%
limit_listed_equity_liquid	EG-LIQUID	Evergreen Family Trust	asset class	listed equity	60%	90%
limit_manager_entity_b	EG-B-OPS	Entity B	manager	Cedarpoint Ventures	0%	55%
limit_hedge_funds	EG-FUNDS	Evergreen Family Trust	asset class	hedge fund	20%	60%

Each limit is measured on the portfolio value at the month end and owned by Risk. A breach opens a case and is reported to the CIO; a breach whose cause is an out-of-date manager valuation is recorded as such and not as a real breach.

4. Liquidity and capital calls

A confirmed capital call due within 30 days opens a Finance case to fund it. Cash may differ from the administrator by up to 5,000 USD per entity per day before it needs a case (owner Raj Patel (approved by Daniel Foo)).

5. Single-manager and single-name limits

Single name in EG-LIQUID: no more than 5% of the portfolio. Manager concentration in the Entity B operating portfolio (EG-B-OPS): no more than 55% with Cedarpoint Ventures.

6. Approval line and reporting rules

Rule	Wording	Owner / approved by
cio_materiality	The CIO sees a change over 100,000 USD or 0.5% of a fund.	Raj Patel / Daniel Foo
estimate_use	A manager estimate may be used in the investment report only.	Raj Patel / Daniel Foo

Rule	Wording	Owner / approved by
statement_due	A manager statement is due within 10 business days of the period end.	Mei Chen / Daniel Foo
fx_fixing	Convert with the WMR 4pm USD/SGD fixing in the market data file.	Raj Patel / Daniel Foo

The CIO is told of any change over 100,000 USD or 0.5% of a fund. Limits and rules are changed only by the owner and need the CIO's approval; the maker never checks their own work.

7. Approval

Role	Name	Date
Policy owner (Risk)	Sofia Reyes	2026-01-01
Approved (CIO)	Daniel Foo	2026-01-01
