FRIDAY 9 OCTOBER · 08:05

Good morning, Mei. 4 things need you today.

Everything here is something to act on. Reading lives in Consume.

Needs me · 4 | Waiting for my approval · 2 | Worth a look · 5

Break · High — Cash reconciliation · opened 06:02

Entity B cash differs by USD 12,400

Tally: wire WIRE-20261008-B01 was booked by the trading desk on 8 Oct and reached the administrator on 9 Oct. A timing difference that clears today.

Close as timing | Open case | Where is this from?

Limit · Medium — Single-name limit 5%

Harborview Semiconductor at 5.75% of the liquid portfolio

A real breach, not stale data. Over by USD 308,000. Risk owner: Sofia Reyes.

Take case | Ask Tally

Due 20 Oct — Capital call

Fund the Cedarpoint Ventures III call: USD 450,000

Entity B has the cash after confirmed calls. Finance approves.

Waiting for my approval

NO **North**
the industry expert · asks one thing at a time

We need a monthly performance report against our benchmark for the family council.

Understood. Who reads it, and what do they decide from it?

I drafted the goal on the right. Accept it or tell me what is wrong.

The family council. They decide on rebalancing.

Thank you. How is it done today, step by step? You can also attach the current workbook.

Tell North how it is done today...

Check on a copy before approving

Cedarpoint Ventures in Entity B operating: 12,925,000 of 22,875,000 = 56.50% against a 55% limit. Headroom −1.50 points.

Approve the plan | Send back with a reason

Span, the build agent

Why join valuations to portfolios this way?

Each valuation belongs to one portfolio, and each portfolio to one entity, so the share per manager adds up per entity without counting a fund twice. Only approved values are used.

Ask about a table, a join or a figure
